

DEPARTMENT OF DEFENSE

GOVERNMENT PURCHASE CARD (GPC) REVIEW

CHECKLIST AND CERTIFICATION

RETENTION REQUIREMENTS: A minimum of six years and three months from the date of the review or corrective action report date.

The Department of Defense Government Charge Card Guidebook for Establishing and Managing Purchase, Travel, and Fuel Card Programs mandates a review of each Managing Account be conducted at a minimum annually, to include a statistically significant random sampling of associated card transactions. The intent of these reviews is to ensure compliance with GPC program policy/guidance and other applicable government regulations, policies, and procedures; and to identify any GPC misuse, fraud, waste, and abuse. This checklist is designed to help reviewers perform the required review; it encompasses DoD "best practices" and its use is not mandatory. This checklist does not include Agency or Service Specific Policy or Guidance; each Service or Independent DoD Agency is encouraged to tailor the checklist to include any Service/Agency-unique requirements.

It may be necessary to complete one check list for each Cardholder associated with the Managing Account. Place a copy in each Cardholder's file.

NOTE: DoD Best Practice for Statistically Significant Random Sample Size: The review of 6% of the transactions constitutes a statistically-based confidence level of 95% with a 2% confidence interval. Use of the Purchase Card On-line System (PCOLS) Data Mining Application to facilitate and document your review is encouraged. Once it has been determined which transactions will be reviewed, ask the A/BO to initiate a DM Case for each; use that information as the basis of your file review and to document your results.

- A/OPC High-Risk DM Transaction should be included—generally these account for ~1% of the transactions.
 - DM flags ~4% of transactions Department-wide for review (3% for cause, 1% random). ~25% of these flagged transactions are sent to A/OPC for “High-Risk” independent review.
 - Each Service/Agency’s actual flagged transaction rate may vary; please verify each review.
- Select additional transactions to obtain the 6%.
 - Reviews should include at least 1 transaction from each Cardholder for the period covered by the review.
 - Contact your Service/Agency Internal Review Office if you need additional guidance on the number of transactions to review.

RECOMMENDATION TO A/OPC FOR ANNUAL REVIEW PREPARATION: Review all PCOLS flagged transactions/dispositions. Run a Transaction Detail report from the card issuing bank's Electronic Access System (EAS) for the period covered by the review.
